

Glass Bracket Post System

This product has **NOT** been tested based on Ontario Building Codes.

Sold as decorative or when OBC does not apply. Check with the city to ensure that this product meets the Ontario Building Codes.

New Product Advisory

- Great as a Divider between neighbour's.
- Makes a Pool Area aesthetically pleasing and at the same time acts as a guard.
- Go with stainless look at an added cost or go with Zinc plated and powder coated to match post.
- Purchase glass direct from Concord. If you do get your own glass, ensure to advise your supplier to POLISH ALL SIDES.
- Glass colour options for clear view or privacy. Maybe just add a colour to spice up the look.

Our new glass Bracket Post is made with advanced technology that allows for easy installation.

6 or 10mm glass requires all sides to be polished. Stainless Steel Brackets.

Concord Aluminum Railings was established in 2002. This company was at the frontier of developing the aluminum railings market in Ontario. At a glimpse, you can quickly notice the years of experience when viewing our products. We have not only been in the market for over a decade but we have maintained our rightful share in the industry due to our continued innovative products we have developed supplied. Our design capabilities continue flourish as we add new merchandise. Please visit our website.
